PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in Python automation, Power BI dashboards, and API-driven data integration. Skilled in data validation, migration projects, and workflow optimization to enable accurate insights and seamless publishing workflows

EDUCATION

B.E. – Information Technology | Savitribai Phule Pune University | SGPA: 8.79

EXPERIENCE

- 1. Data Analyst Intern | Paarsh Infotech Pvt. Ltd. | Hybrid | Jan 2025 – Jul 2025**
Conducted data validation and integrity checks across large datasets, ensuring accuracy and compliance with client reporting standards.
Gathered data from internal CRM and external APIs for integration into client dashboards.
Performed exploratory data analysis (EDA) to identify patterns and optimize reporting metrics.
- 2. ERP Intern | MIT ERP Office | Onsite | Jul 2022 – Aug 2022**
Gained hands-on ERP system knowledge; managed student data & automated reports.
Cleaned and validated student records for ERP migration, ensuring data completeness and accuracy.

PROJECTS

- 1. Data-Driven Compliance Dashboard (Power BI, SQL)**
Designed an interactive Power BI dashboard to monitor compliance metrics across multiple data sources. Enabled real-time anomaly detection and regulatory reporting, improving accuracy and reducing manual reporting effort.
- 2. Amazon Prime Video Insights Dashboard (Power BI, SQL)**
Analyzed 100 years of streaming content data and built a dashboard with country-wise, genre-wise, and age-category filters.
Delivered business intelligence insights into viewing trends, movie vs TV show distribution, and growth over time.
- 3. Automated Course Content Generator (Python, Streamlit)**
Developed automation scripts to parse, validate, and organize large volumes of unstructured content. Streamlined publishing workflows by generating structured, compliance-ready documentation, reducing manual work significantly.

TECHNICAL SKILLS

- **Programming & Data:** Python, SQL, MySQL, Data Cleaning & Validation, EDA, Statistical Analysis, APIs/ Data Gathering, Automation
- **Visualization & Reporting:** Power BI, Tableau, Excel, Jupyter Notebook
- **Other Tools:** GitHub, Streamlit, React (basic), Node.js (basic)
- **Soft Skills:** Analytical Thinking, Attention to Detail, Documentation, Communication, Team Collaboration

CERTIFICATIONS

- 1. Google Data Analytics Certification**
- 2. Data Analytics Job Simulation – Deloitte Australia (Forage)**
- 3. Database Management by IIT Kharagpur (NPTEL)**
- 4. AWS Solutions Architecture - Forage**
- 5. Walmart Advanced Software Engineering Job Simulation**

ACHIEVEMENTS

- **Google Student Ambassador** – Representing Google in student community, conducted workshops & events.
- **Participated in multiple hackathons** including **SIH, IndiaAI Hackathon, Innovate India Hackathon, Flipkart Grid, Walmart Sparkathon 2025.**
- **Got Pre-Placement opportunity from Wipro in 2023**
- **Coordinator** – Student Technology Club (INFINITY) – Organized coding challenges, tech talks & innovation events
